

Success Stories

Sam A. Patel, D.D.S., PA

Your Downtown McKinney Dentist

401 S. Tennessee • McKinney, TX 75069

972-542-3324 • 972-542-4663

“Little things make perfection, but perfection is no little thing”

Dr. Sam Patel's dental practice delivers the personalized patient care people expect when they think of an established neighborhood dentist. Educating patients on the value of good oral hygiene for overall well being is the cornerstone of his practice. Being focused on patient needs has definitely established a sense of comfort and loyalty, making Dr. Patel "Your Downtown McKinney Dentist."

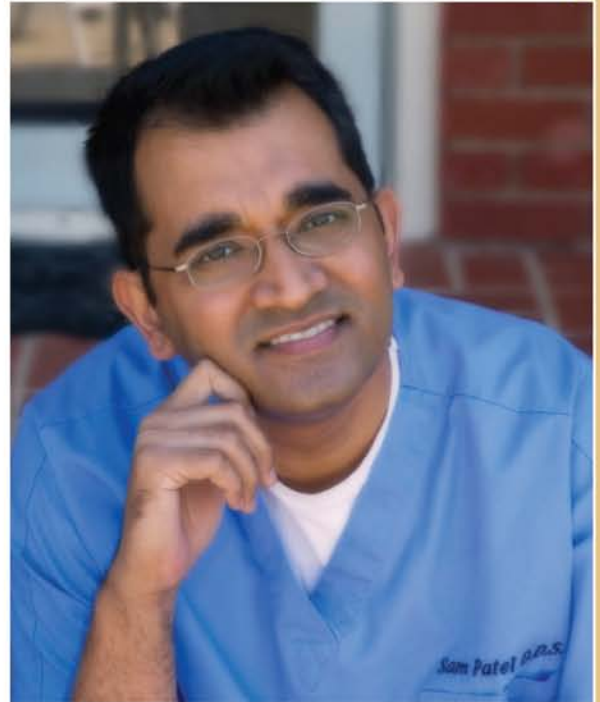

Dr. Patel describes his passion of dentistry as a form of art. "Little things make perfection, but perfection is no little thing." Dr. Patel graduated from the University of Pacific Dental School in San Francisco and the Misch Implant Institution in Beverly Hills, Michigan. He then practiced dentistry in California for eight years and then moved to McKinney to be closer to family.

Located just two blocks south of the historic downtown square, the office is one of the longest established offices in McKinney, existing for over 50 years. In the late 1940s through the 1960s, Dr. Minton served the community in this office, as did Dr. Richard Conoly from the 80s through 2006. Dr. Patel took over the practice in 2006. Following in their footsteps, Dr. Patel and staff provide personal patient care in a comfortable state of the art facility.

Dr. Patel and his staff of four Registered Dental Assistants provide routine procedures such as deep cleanings, fillings, veneers, and crowns to the more complex root canals, extractions, implants and cosmetic dentistry. Digital x-rays and digital photos are also used at Dr. Patel's office. Digital x-rays use the least amount of radiation possible and digital photos allow patients a unique opportunity to truly understand, sometimes for the first time, issues that may need to be addressed.

He also offers the option of sleep dentistry provided by an on-staff board certified anesthesiologist. It creates a comfortable, cost effective way to have several dental procedures done in one day, again saving the patient time away from work.

This office incorporates technologically advanced equipment that helps provide a safe, efficient and enjoyable dental experience. Factor in Dr. Patel's extensive training and years of experience, and the result is a practice which allows patients to receive all procedures at one location. This eliminates the need for patients to travel to another location, saving both time and money. "Dr. Patel's staff is

Dr. Sam Patel, your downtown McKinney dentist, focuses on personal patient care and convenience, and offers a state of the art facility.

able to accommodate my busy work schedule, allowing me to be away from work for shorter periods of time," says Steve R., one of Dr. Patel's patients. Like many other patients, Steve benefits from the flexibility of the staff to open the office early or close late in an effort to better serve the needs of the patient.

Along with his wife and two children, Dr. Patel calls McKinney "home." He is involved in his community, being an active member of the McKinney Chamber of Commerce and volunteering his time and expertise to the McKinney Makeover Network.

Personal patient care, convenience and a state of the art facility – Dr. Patel's patients receive the best of both worlds from this neighborhood dentist in downtown McKinney.
